

3 hawker centres to undergo upgrading starting today

THREE hawker centres – Blk 1 Jalan Kukoh, Blk 79/79A Circuit Road and Beo Crescent Market/Food Centre – will be given a facelift under the National Environment Agency's (NEA) Hawker Centres Upgrading

Programme.

NEA yesterday said the upgrading for these centres will start today, and stallholders can look forward to resuming business in the upgraded centres during the first half of next year.

Improved ventilation, spatial enhancement and upgraded toilet facilities are some key aspects of the upgrading works at the three hawker centres.
