

Learning at the loo

(From left) Trade and Industry Minister Lim Hng Kiang, Economic Development Board assistant managing director Quek Swee Kuan and MP for Tanjong Pagar GRC Baey Yam Keng watch a multimedia display in a Suntec Singapore washroom.

The motion-activated installation - one of

many dotted throughout the Apec venue - explains how Singapore met its water needs despite having limited natural resources.

The series, known as the Singapore Showcase, aims to help Apec delegates learn more about the host nation.
