

NO LOOS ON 3RD FLOOR OF ESPLANADE

 IN VIEW of the fact that the Esplanade is the premier arts hub in Singapore, I find it distressing that there are no restrooms on the third floor of the Esplanade mall.

This prevents valued patrons of the arts – some of whom may suffer from urinary-tract conditions – from being able to conveniently relieve themselves.

Moreover, the library@esplanade is also located on that floor, and many students find the place conducive for studying.

Surely, it is the Esplanade's responsibility to consider the needs of library-goers too?
