## Sad state of toilet facilities on Sentosa beach

[View more photos](#)

I VISIT Tanjong Beach on Sentosa regularly and am appalled to see the poor maintenance of facilities there.

Instead of roomy, airy and proper bathing and toilet facilities, Tanjong Beach has only "makeshift" ones inside metal cargo containers.

And the maintenance of the toilets is appalling.

I would appreciate an explanation of this situation.

Agree with writer. Tanjong Beach Toilets are the worst amongst all the Sentosa Beaches. Rather makeshift looking, peeling paint and crummy floors. Perhaps it is the quietest of beaches there that priority for its upkeep is way lower than the others. Sentosa authorities, please do something for this.

all toilets along the beach are poorly maintained and have been so for a number of years. Sentosa management should use the toilet and showering facility during weekends to know what the issues are. The list is going to be long .....

Oei! At least there is a makeshift toilet for you to pee or s\*\*\*! Imagine you have to answer nature's call and can't find a place to do it?! What do you expect from a beach area? A lacquered toilet bowl?

Next time dig a hole and do what the cats do!

Spoilt brats, society pallei, society misfits [from rich and poor families alike] are in our midst 24/7.

They are the products of our schools and homes due to the lack of nurturing the kids from age 6 on good manners and decorum.

No idea what is Complete Education for kids from age 6.
