

Triathlons at ECP

“The area should be redeveloped.”

MR DENNIS GORDON DE SOUZA: “East Coast Park near carpark E2 is a popular venue for staging triathlon races. Sadly, the beach has several sharp-edged rocks and rusty metal cans sticking out of the sand where participants rush to the sea. The area should be redeveloped to include a proper bicycle transition area, running tracks, shower rooms, toilets, level ground, shelters and, yes, a clean beach sans sharp rocks or rusty metal. Triathlons are high-end events that attract international participation. Organisers should also note that the speakers are too loud to make announcements and should be properly distanced from participants. The loud rap music is just as much a turn-off. Last but not least, the food centre nearby needs upgrading - urgently.”
