

# GV Yishun in poor condition

I took my children to watch a movie at GV Yishun on Jan 17.

Some of the seats were in such poor condition that there was hardly any cushioning and one had to cope with bites from bugs or other creepy crawlies.

After the movie, we headed towards one of the exits and saw seven or eight bags of rubbish lying about, and urine trickling down the staircase.

From our experience, this staircase always stinks. The toilets are always wet and they smell. The entrance to the cineplex is almost half-blocked by a cosmetics shop.

The authorities should take action to solve the problems.
