

## So thoughtful! Toilets at Bangkok Airport have signs telling you how far the next one is

STOMPer **Khin** is impressed that signs are put up outside the toilets at Bangkok Airport, stating the distance to the next toilet.

Perhaps this is something Changi Airport can adopt? Khin says:

"I took these photos at Bangkok Airport this morning (Aug 26).

"This is the improvement, showing the distance to next Ladies and Gents.

"It is very useful information for passengers, so they can make the decision whether to use this toilet or use another one depending on their individual emergency."
